MID-MARKET PROCUREMENT

Operational Procurement with SAP Ariba is easier than shopping on bol.com. An easy shopping experience guides users to preferred suppliers. Negotiated savings become actual savings, your Spend Under Management increases and your processing costs will drop.

Mid-Market **Procurement** is designed to deliver fast time-to-value. It is a full P2P solution that is pre-filled and preconfigured based on Industry templates and Best Practices.

This fast-track offering with out of the box functionality is implemented in a short time-frame with a reduced subscription fee for the software. You will get a full SAP Ariba P2P system with content ready to use from day one – such as Spot-Buy – delivering instant value.

Key benefits:

- **12 week P2P deployment**
- Spot-buy giving access to 10 million products straight away
- 100% electronic document exchange with your suppliers
- Mobile ready shopping and approval
- Preconfigured content including spend categories, approval flows, pre-created forms, and 60 invoice exception types.
- Take your business on to the world's largest business network
- Native integration to your SAP ERP

We are senior procurement professionals. We deliver SAP consulting services specialized in optimizing procurement business processes. Customers choose Compera because of our procurement/SAP knowledge and our pragmatic approach.
