PROCUREMENT
SIMPLE!**

SAP SRM FUTURE

As a Supplier Relationship Management (SRM) user, you may be curious to find out more about the future of this solution. SAP announced that SAP SRM will have mainstream maintenance until 2025. There will be very limited innovations in the meantime for the end user to take advantage of.

The innovations for digitalizing the procurement processes happen in SAP S/4HANA and SAP Ariba. This does not mean that you have to replace SAP SRM immediately.

This provides us with a good opportunity to review how well SAP SRM is addressing the current business challenges and ambitions of your organization. There are multiple path's possible towards your future procurement organisation. Let's find out what your ideal path is.

We gladly tell you more about the roadmaps and innovations and we can advise you about the transition paths.

About Compera:

We deliver SAP Consulting services specialized in optimizing the procurement processes. We have expertise with both SAP ECC and SAP SRM as well as with SAP Ariba and S/4HANA.
